## About Dimagi Academy

Dimagi Academy is an online learning resource for CommCare materials, based on the EdX e-learning platform.

It also contains tests that are necessary if you want to become Certified in any CommCare project role. For more information on the various CommCare Learning Tracks please see [CommCare Learning Tracks](#).

For information on Certification visit [CommCare Certification](#)

Dimagi Academy is one of the family of CommCare Learning Tools:

- [CommCare Help Site](#) - static documentation on most features, including advanced technical and implementation resources

- CommCare User Forum - an online community of CommCare users that answer questions posted by community members. This group is monitored by Dimagi staff as well
- Dimagi Academy - interactive short courses and tests used to evaluate an individual's knowledge of CommCare

## Honor Code

When completing tests and other exercises on Dimagi Academy, you are responsible for doing your own work. Please do not copy someone else's answers or share your answers with another student. If the Dimagi team discovers that you have copied answers or shared answers to any test, we reserve the right to revoke your Statement of Accomplishment or Certificate. For contracted projects, Dimagi also reserves the right to require you to retake the test as part of required milestones outlined in the contract.

While you must complete your own work, for some sections of a course, you may use other Dimagi learning resources for support, including the Help Site and the CommCare Users Google Group.

## Terms of Service

Currently there are no terms of service associated with Dimagi Academy.

## Privacy Policy
